

Environmental Policy Statement

**DSI Power Ltd.
Unit2 Pebble Vale,
Sneyd Street. Sneyd Green.
Stoke on Trent. ST6 12 NP**

In all our endeavours our business will: -

- Adopt and aim to apply the principles of "sustainable development" - that is, development that meets the needs of the present, without compromising the abilities of future generations to meet their own needs.
- Seek to improve its environmental performance continuously.
- Foster the commitment of all management and staff to improving the environmental performance of business.
- Strive to adopt the highest available environmental standards in all areas of our business.
- Adopt a total "cradle-to-grave" assessment and responsibility of our products and services.
- Aim to minimise the use of all materials, supplies and energy. Wherever possible we will use renewable or recyclable materials and components.
- Minimise pollution produced in all parts of the business, and aim for "pollution-free" processes.
- Adopt an environmentally sound transport strategy.
- Assess the environmental impact of all our operations past, current and future.
- Demand similar environmental standards to our own from all third parties involved with our business - suppliers, vendors, contractors.
- Assist our customers to use our products and services in an environmentally sensitive way.
- Liaise on a continuous basis with the local community.
- Include environmental consideration in investment decisions.
- Assist in developing economically - viable solutions to environmental problems in our industry
- We will show due duty of care by taking all reasonable steps to keep waste safe. Where we give or contract the removal of waste to someone else, we will be sure they are authorised to take, transport, recycle or dispose of it safely.

Signed.

D. Carnett.

Director
